Minutes of the Neighborhood Plans Committee Meeting (Cont'd)

d. Method of Operation-

1. Do background studies and prepare statistical profiles in areas where the Department is assigning an area planner for the first time.

2. Often work in teams of departmental specialists (zoning, housing transportation, etc.) when work program calls for detailed study or preparation of plans or programs in a particular area.

The report was given by John Phair, Planning Coordinator.

In the discussion that followed, it was decided that an effort would be made to arrange the Department's list of over 200 neighborhood organizations in terms of geographic sub-areas of the city and according to areas of interest (Housing, Transportation, Neighborhood Beautffication, etc.) as well as the alphabetical listing that presently exists. It was also decided that future meetings of the Neighborhood Plans Committee will focus on specific neighborhoods. There will be a discussion of needs, problems, and issues as well as a status report on the current activities of the Department to be presented by the planner assigned to the area.

Respectfully submitted,

John Phair
Acting Secretary
